

## 2018 *FIRST* Robotics Competition Championship Pit Cable Specifications

At both 2018 *FIRST* Championship locations, an RF Cable Drop will be provided in each Team Pit.

There will be 12 channels on the system providing feeds from each sub-division live feed, as well as the sub-division standings.

The RF Feed will be digital television standard 256QAM Clear. The feeds will be 1920 x 1080 HD.

The connector will be a standard coaxial cable with an F connector.

Any television sold today with a tuner will be able to accept QAM Clear Signals. In addition, there are many devices that allow interface into a computer for recording.
