

PRESENTED BY **BAE SYSTEMS**

2023 *FIRST* Robotics Competition Championship Practice Fields

Quick Facts

- **Teams must be fully inspected to use any practice area (Gold Championship Inspection Sticker)**
- Teams must be safe and courteous on all practice areas
- 2 Formal Practice Fields per Pit Area
 - Both fields are full competition fields
 - Cubes & Cones are provided, and teams are expected to help with field reset
 - Filler line used on both fields
 - 1 tethered-only Field
 - Maximum 4 teams allowed on the Field at once
 - 10 Minute Time Limit
 - 1 fully wireless Field
 - On Wednesday, this field will also be tethered-only
 - On Thursday & Friday, teams use their robot radios and play two matches back-to-back
- Informal Practice Area per Pit Area
 - Consists of wooden Single and Double Substations, wooden Grid, and replica Charge Station
 - Tethered-only operation
 - 10 Minute Time Limit

Hours of Operation

Wednesday (Tether)	Thursday (Tether/Wireless)	Friday (Tether/Wireless)
12:00PM – 2:00PM (Early access to informal areas for teams who shipped) 2:00PM – 7:00PM (will extend if pits remain open late)	7:00AM - 6:00PM	7:00AM - 6:00PM

Early Shipping Teams

For teams that ship their robots, the following considerations are made:

- Exclusive access to the Informal Practice Areas from 12:00PM to 2:00PM on Wednesday
- One single-use “Fast Pass” which will grant teams priority in the Formal Fields filler line on Wednesday
 - Fast Pass is included in team packets and printed on peach-colored paper

Miscellaneous

- Practice areas are not available on Saturday
- Teams working with a CSA on Control System issues will be given priority in the filler lines
- No production equipment: no match sounds or countdown. Teams will need to monitor the field timers
