

## YOU NEED TO ORDER

Your team will need a **WeDo 2.0** set to include in your model. Don't have one? Go to the **LEGO Education** webshop.

You can choose between the **LEGO Education WeDo 2.0 Core Set** or **2017 FIRST LEGO League Jr. WeDo 2.0 Set** which includes the **add-on power pack**, for an optimal experience (recommended).

Your registration includes the **AQUA ADVENTURE<sup>SM</sup> Inspire Set**, which will include the elements you need for the season and your Engineering Notebooks.

## ORGANIZE

### STEP 1

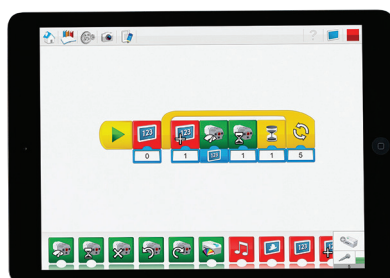

Sort all the LEGO elements in the provided sorting tray.

The lid card shows a visual of how pieces are organized.

### STEP 2

Download the WeDo 2.0 Software or Programming app at [www.legoeducation.com/download](http://www.legoeducation.com/download).

### STEP 3

Ensure there is an **Engineering Notebook** for each team member to use and one for yourself to reference. Plan how you will store the notebooks in between meetings.

## DIVE INTO THE CHALLENGE

Download your Inspire Model build instructions at [www.firstlegoleaguejr.org/challenge](http://www.firstlegoleaguejr.org/challenge) and have your team build their Inspire Model

This is your inspire model. Watch a video to see how it works: [www.firstlegoleaguejr.org/inspireset](http://www.firstlegoleaguejr.org/inspireset)

Review the **Challenge** on **Page 5** of your **Engineering Notebook** or download it from [firstlegoleaguejr.org/challenge](http://firstlegoleaguejr.org/challenge)

Review the **Team Meeting Guide**. This is a coach tool that outlines your sessions with your team.
