

Welcome to the **FIRST**[®] **LEGO**[®] League Jr. Expo!

We hope your team is as excited to be here as we are to have them join us today. To help us ensure every student team member has a fantastic experience we would like to share some event etiquette with you. Please share these with ALL adults who will be accompanying your team today. This event is all about the kids. We appreciate all the time, sweat, snacks, rides and maybe even a few tears that you have brought to your team. They couldn't have gotten this far without you. But today is their time to shine! Please remember this as we would like every child to come out of today having had a fantastic experience.

- **At your team's reviewing time you are welcome to go along with the team if it is in a different area.** Once the initial carrying and setup is complete please take a few steps back and allow our reviewers to hear from your team. The reviewers are eager to talk to your team members and learn everything they did this season. They will do their best to engage every team member in some way, so all are able to contribute.
- **If your team members need some type of special accommodations, please let us know!** We want every team member to feel engaged and valued during the process. Please talk to a reviewer or other volunteer about your team's needs sometime prior to your reviewing session.
- **Everything we do is guided by FIRST[®] Core Values** we expect that all in attendance will act with them in mind.
- **HAVE FUN!** The Expo is a culmination of all the efforts you and your team members have put into this season. Make sure to you enjoy this time as your team shows of their hard work and learns from other teams.

Thank you for all you have done to encourage your team in STEM and for bringing them here today. We look forward to learning from them today!

With High 5's and Admiration,

FIRST[®] LEGO[®] League Jr. is the result of an exciting alliance between *FIRST*[®] and the LEGO[®] Group.
