

# Typical Volunteer Paths

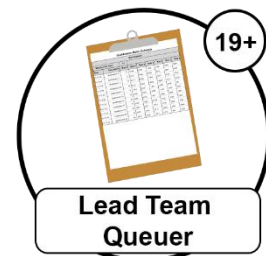

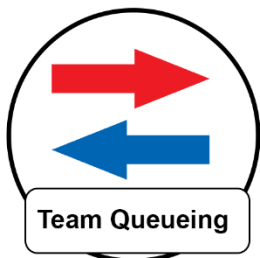

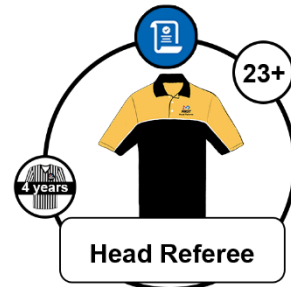

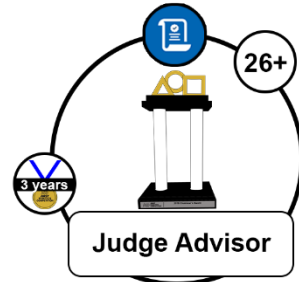

## For **FIRST**® Robotics Competition Volunteers

This document shows the potential paths that volunteers may take during their volunteer career. Please note that this is a partial list of roles, and more will be added at a later time.

You can consult with your local Volunteer Coordinator to determine your path. In addition to these paths, Key Volunteers must also exhibit good communication, Gracious Professionalism, organization, and conflict resolution skills.

**LEGEND**  
 Minimum Age  
 Certification Required  
 Preferred Path

Note: These roles can be filled by volunteers with technical and non-technical skills. See the [FIRST Robotics Competition Role Descriptions](#) for specifics on that role.
